Public Library Statistics Executive Summary 2023–24

The State Library of NSW collects public library statistics in support of the Library Council of NSW's duty to make careful inquiry into the administration and management of local libraries provided by local authorities which have adopted the Library Act 1939 (s5 Library Act 1939).

All NSW local government authorities (councils) have adopted the *Library Act 1939*, and all but one provides public library services to their communities.

In 2023–24 there were 90 library services, including stand-alone libraries and regional or joint libraries where up to 10 local councils have entered into a written agreement to provide combined services.

There were 361 library buildings. In addition, there were also 37 deposit stations/other service outlets, 31 administration/specialist service points and 30 mobile libraries operated by the library services, providing services to remote and isolated communities (figures as at June 2024).

NSW public library statistical measures have been gathered, collated and published by the State Library of New South Wales since 1973. The annual public library financial and statistical data, along with our research into services and trends, represents a significant body of information that assists the development of policy and practice advice.

This issue of *Public Library Statistics* has been produced from the reports provided to the State Library of New South Wales by local councils for the period July 2023 to June 2024.

2022–23 was the first year since 2019–20 that was not significantly affected by the COVID-19 pandemic. The 2023–24 figures show a continuation in growth, post-pandemic.

2023–24 figures

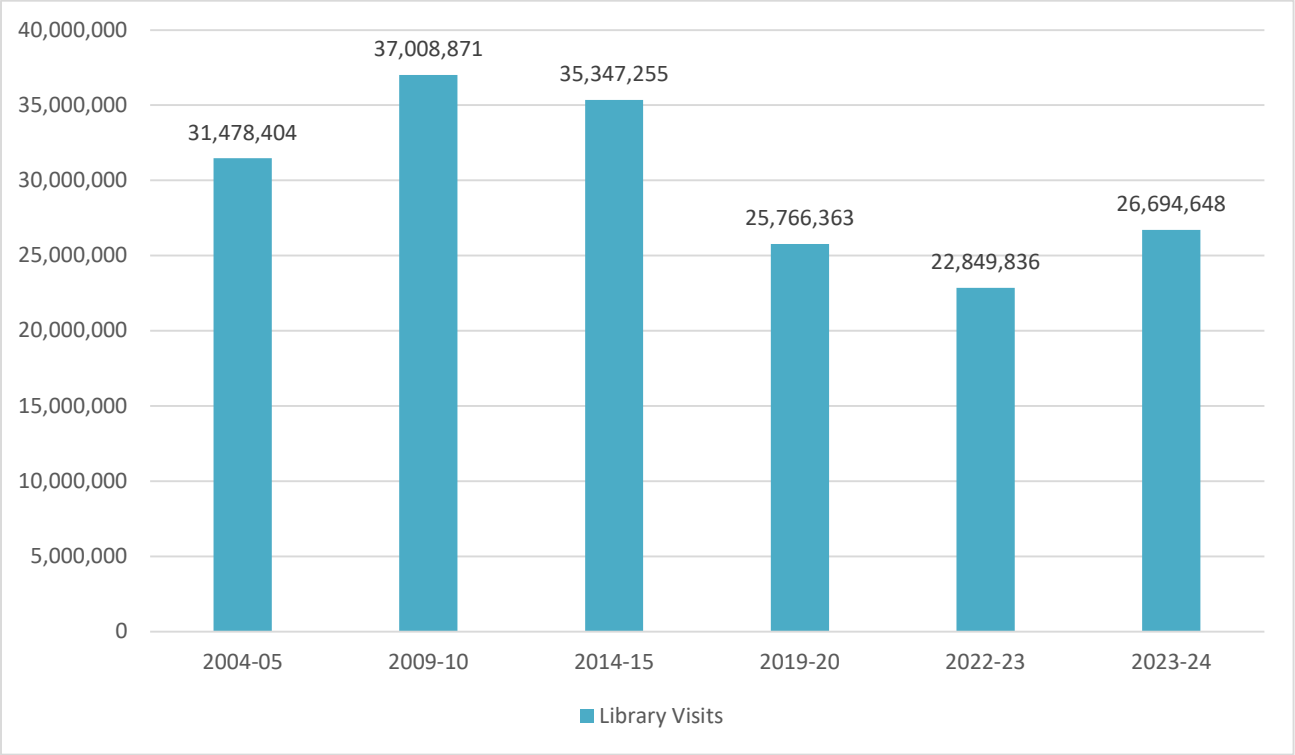

Usage of facilities and collections:

- Physical visits to public libraries were 26.7 million in 2023–24.
- Loans of collection items were 39.7 million in 2023–243
- Virtual visits to public library websites were 14 million in 2023–24.
- Internet bookings in public libraries (including Wi-Fi) were 11.3 million in 2023–24.
- There were 2.7 million eBook loans in 2023–24.

Detailed tables comparing many measures follow. Please contact the State Library for further information.

Greater than 10 years old	6.69	27.25	23.25	22.81	28.69	27.01

How current are collections in local libraries?

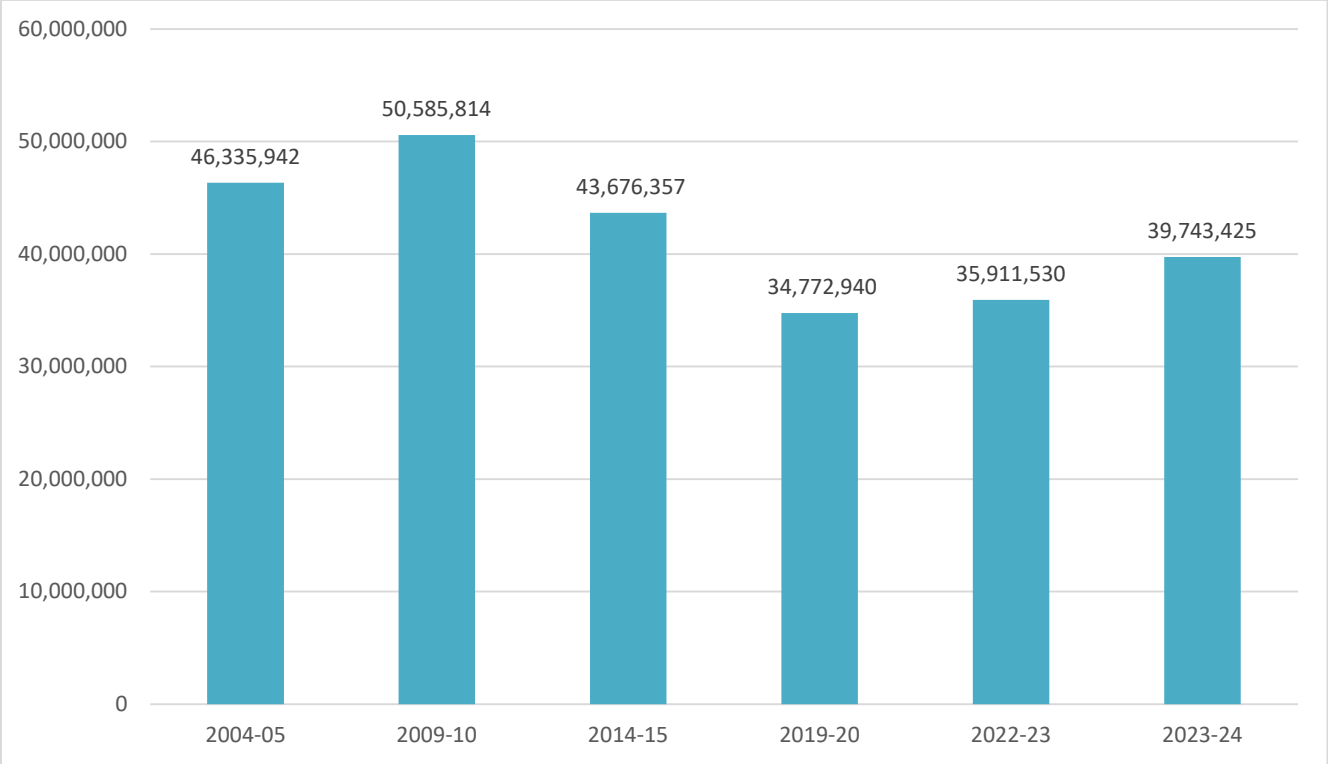

In 2005–06, 93.31% were less than 10 years old and 50.23% less than 5 years old.
In 2009–10, 72.75% were less than 10 years old and 46.64% less than 5 years old.
In 2014–15, 76.75% were less than 10 years old and 50.79% less than 5 years old.
In 2019–20, 77.19% were less than 10 years old and 51.28% less than 5 years old.
In 2022–23, 71.31% were less than 10 years old and 48.48% less than 5 years old.
In 2023–24, 72.99% were less than 10 years old and 50.36% less than 5 years old.

Data on the age of collection from 2005–06 to 2007–08 was calculated by comparing the total number of items purchased over the last 5 years and the last 10 years with the total current stock.

**From 2008–09 the methodology used to calculate the age of material was revised to improve accuracy of the data collected in this area. The data presented in Age of Library Material is now based on the number of items purchased in the last 5 years and the last 10 years according to the date the material was acquired by the library as reported by the library's Library Management System.

Significant changes between 2008–09 and previous years can be attributed to these changes in methodology and the availability of more accurate data.

Notes to Public Library Statistics

Disclaimer

The data published in *Public Library Statistics* is provided by New South Wales local councils and their public libraries. Data definitions are shared with all the councils prior to the annual collection to promote consistency of data submitted.

The State Library runs edit checks over the data submitted and queries results with councils where necessary. However, it is acknowledged that there may be inconsistencies from year to year.

This report of statistical measures for public libraries in New South Wales has been produced from the 2023–24 statistical return reports provided to the State Library by local councils. It covers the period July 2023 to June 2024.

The 2023–24 statistics are based on data submitted as at 30 June 2024 with per capita calculation based on ABS Estimated Resident Populations as at 30 June 2023 (published April 2024).

Public Library Statistics has been published since 1973, providing significant historic timelines for comparative purposes.

Tables: Explanatory Notes

Some of the tables relate to a council, (e.g., annual expenditure), whilst others relate to the library service, whether that be a standalone library, or a library service operated by more than one council.

Table 1 Expenditure and Subsidy & 1a Voted Expenditure, Subsidy and Local Priority Grant

The total expenditure figures provided by councils include monies from all sources spent on the library service for that year. This figure, therefore, includes State Library Subsidies and Grants where applicable, as well as the contribution made by local government. The total expenditure figure is the gross expenditure, not the net expenditure.

Operating Expenditure per Capita is reported to the NSW Office of Local Government as part of the Comparative Information on NSW Local Government Councils.

Councils report their financial data to the State Library of NSW via the Statement of Library Operations form.

The expenditure figure for July 2023–June 2024 (Table 1a) represents the total **voted** by councils for library services in this period. This figure may vary when the actual expenditure figures for this period are known. The Subsidy, Local Priority Grant & Additional funding figures in this table do not include funds from the State Library Grant programs. Details of the grant funds allocated in each year are listed in the *Annual Report of the Library Council of New South Wales*.
Website: https://www.sl.nsw.gov.au/about/policies-and-publications/publications/annual-reports

All NSW councils which provide a library service in accordance with the Library Act 1939 receive a Subsidy Adjustment payment in support of their library. Councils allocate at least 30% of their Subsidy Adjustment payment to a library project, termed their “Local Priority Grant”. These payments are reported in tables 1 and 1a as follows: “Subsidy” comprises the per capita prescribed amount plus the portion of the Subsidy Adjustment which is not allocated to the Local Priority Grant. The “Local Priority Grant” is the amount nominated by each council for its Local Priority Grant project.

Table 1d Expenditure on Library Material: By Library Service

This table lists the breakdown of expenditure on library material.

Table 2e Circulation by Council

This table lists circulation and circulation per capita by council. This data was previously reported by the NSW Office of Local Government and published in the Comparative Information on NSW Local Government Councils.

Table 4a Non-Resident Members by Council

This table lists non-resident members by council. This figure is used by the NSW Local Government Grants Commission as part of the Library Services index calculation.

Table 5 Service Points

A *Service Point* refers to a library building, not the number of information or service desks within a library building.

A *Library* is a library service point where the public have direct access to a broad range of library services and facilities with a regular schedule of public service hours operated by permanent paid library staff present during all hours of opening.

A *Specialist Service Point* is a facility with public access that does not offer a broad range of public library services but focuses on a restricted range of public library services e.g., children's library, genealogy centre, technology facility. It is operated by paid library staff present during all hours of opening. Specialist service points may operate from a dedicated building or within a library, or from within an administrative building. This should not be counted as a library but as a specialist service point.

An *Administration headquarters* or *centre* is the operational centre for a multiple site library service that operates only, or mainly, for administrative functions and does not provide public access to a full range of public library services. This should not be counted as a specialist service.

Public Service Outlets - Deposit Station – A service point not operated by library staff, usually open limited hours and stocked with a small collection of books and other library materials that are changed periodically. Computer access to the library's database and / or public access to Wi-Fi may also be provided. Bulk loans to institutions e.g., nursing homes, retirement villages, and schools are not to be listed as deposit stations. Do not count unstaffed "little free libraries" which are free book exchanges.

Public Service Outlets - Other – These may include service points which are operated by paid library staff but are open less than ten hours a week. e.g., Book express at a train station. Do not count irregular pop-up library appearances, they should be counted as library programs in section 8.1. Do not count unstaffed "little free libraries" which are free book exchanges.

A *Joint Use Facility* or *Area* is open to the public, has a permanent paid staff and is managed by a formal cooperative agreement between the council and another institution. A Joint Use Facility normally functions as a library e.g., a school / public library whilst a Joint Use Area functions within a library e.g., a Centrelink Agency or Rural Transaction Centre. Note: Joint Use does not include co-location.

A *Mobile Library* is a vehicle equipped and operated by paid library staff to provide a mobile branch library service.

Table 5 Hours of Opening

Hours of opening count the number of hours a library is open to the community.
Hours of opening are not counted twice for any service point that covers more than one function.
For mobile libraries only operating hours, not time spent traveling each week, are counted.

Table 10c Expenditure on Library Material Per Capita

Prior to 2009–10 this table excluded licensed access to electronic resources. See table 1d for breakdown on expenditure on library material.

Table 11b Average Cost of Library Material

The cost has been calculated by dividing the total expenditure on library materials by the number of acquisitions. The resultant figure is distorted by each library's expenditure on periodicals and the number of donations counted as acquisitions.

Table 11c Age of Library Material

From 2008–09 the methodology used to calculate the age of material was revised to improve accuracy of the data collected in this area. The data presented in Age of Library Material is now based on the number of items purchased in the last 5 years and the last 10 years according to the date the material was acquired by the library as reported by the library's Library Management System.

In previous years the age has been calculated by comparing the total number of items purchased over the last 5 years and the last 10 years with the total current stock.

Table 16b Turnover of Stock

The turnover is calculated by dividing circulation by the total lending stock.

Table 17b Total Qualified Staff

Prior to 1992 total qualified staff referred to the number of positions available for qualified librarians. However, from 1993 this table refers to the total number of library staff with professional librarianship qualifications, regardless of the position they occupy.

Categories

Up to 1994–95 library services were categorised as ‘metropolitan’ or ‘country’ in line with the categories assigned to local authorities by the NSW Local Government Grants Commission. This categorisation was based on two variables: geographic location and size of urban centre. For further details see the introduction to the 1994–95 *Public Library Statistics*.

By 1995–96 the need for comparative analysis of Australian local governments on a national basis had been recognised and the **Australian Classification of Local Governments** was adopted by the NSW Local Government Grants Commission. The national system uses population, population density, population growth, and location to identify twenty-two categories of local government in Australia as detailed below. This classification system has been used in *Public Library Statistics* from 1995–96.

Australian Classification of Local Governments

Step 1	Step 2	Step 3		Alpha	Numeric
	Capital City (CC)	Not applicable		UCC	1
URBAN(U) Population >20,000 **or** Population density > 30 persons per sq km **or** >= 90% of LGA population is urban	**Metropolitan Developed (D)** Part of an urban centre > 1,000,000 and Pop. Density > 600/sq km	Small(S)	up to 30,000	UDS	2
		Medium(M)	30,001–70,000	UDM	3
		Large (L)	70,001–120,000	UDL	4
		Very large (V)	>120,000	UDV	5
	Regional Town/City (R) Part of an urban centre with population < 1,000,000 and predominantly urban in nature	Small	up to 30,000	URS	6
		Medium	30,001–70,000	URM	7
		Large	70,001–120,000	URL	8
		Very large	>120,000	URV	9
	Fringe (F) A developing LGA on the margin of a developed or regional urban centre.	Small	up to 30,000	UFS	10
		Medium	30,001–70,000	UFM	11
		Large	70,001–120,000	UFL	12
		Very large	>120,000	UFV	13
RURAL (R) An LGA with population <20,000 **and** population density < 30 persons per sq km **and** < 90% of population is urban	**Significant Growth (SG)** Average annual population growth > 3%, population >5,000 and not remote.	Not applicable		RSG	14
	Agricultural (A)	Small	up to 2,000	RAS	15
		Medium	2,001–5,000	RAM	16
		Large	5,001–10,000	RAL	17
		Very large	10,001–20,000	RAV	18
	Remote (T) Situated in a remote locality.	Extra small	up to 400	RTX	19
		Small	401–1,000	RTS	20
		Medium	1,001–3,000	RTM	21
		Large	3,001-20,000	RTL	22

Note: For ‘Rural Agricultural Very Large’ (RAV), ‘Rural Remote Large’ (RTL) and ‘Rural Significant Growth’ (RSG), 20,000 is the upper limit because beyond this number all local governments are deemed ‘Urban’.

The *Expenditure and Subsidy* table on **pages 2–4** uses the Australian Classification categories. For the purposes of this report, the council statistics in the *Expenditure and Subsidy by Councils* table on **page 9** are divided into the seven main categories of Capital City (CC), Urban Metropolitan Developed (D) Urban Regional Town/City (R), Urban Fringe (F), Rural Significant Growth (SG), Rural Agricultural (A), and Rural Remote (T).

TABLE 11c - AGE OF LIBRARY MATERIAL 2023–24

In 2008–09 the methodology used to calculate the age of material was revised to improve accuracy of the data collected in this area. The data presented in Age of Library Material is now based on the number of items purchased in the last 5 years and the last 10 years according to the date the material was acquired by the library as reported by the library's Library Management System.

In previous years the age has been calculated by comparing the total number of items purchased over the last 5 years and the last 10 years with the total current stock.

A calculation of the percentage of library material purchased during:
